

LANE COLLAPSES IN GRAND STAND

**Suffers Nervous Breakdown,
Result of Overwork.**

**Reviews Native Sons' Parade
During Intense Heat.**

**Doctors Say His Heart Is in
No Way Affected.**

(BY DIRECT WIRE TO THE TIMES.)

SAN FRANCISCO BUREAU OF THE TIMES, Sept. 9.—[Exclusive Dispatch.] As representative of Gov. Johnson, while he was reviewing the great Native Sons' parade soon after the review in Oakland, Franklin K. Lane, secretary of the interior, suffered an attack of nervous collapse and fell to a faint on the platform. By his side was Mayor Ralph, San Francisco, and seated just back of him were Mrs. Lane and the secretary's young son. Mrs. Lane cried out in alarm and rushed to her husband's side. Mayor Ralph signaled to Chief of Police Seligman, who proved his efficiency by tearing away a section of the railing as the unconscious man could be quickly removed to a waiting auto in which he was taken with his wife and son to the home of his brother, Dr. Frederick J. Lane, in Berkeley.

There was great excitement among the crowd packed about the reviewing stand at Fifteenth street and Broadway, and it looked for a moment as though there would be a dangerous scene, but the police restrained the excited people from rushing up to the stand and Mayor Ralph, as soon as the secretary was removed, announced the cause to the people and quieted the tumult.

STATEMENT OF DOCTOR.

Dr. Clark Burman had been summoned by phone, and he said Dr. Lane suddenly collapsed about the reviewing stand. Dr. Lane issued this statement: "The secretary is suffering from nervous breakdown. This is the climax of a severe nervous strain he has been under, combined with a bad cold from which he has been suffering."

At 5 this afternoon Dr. Lane said the secretary was sleeping quietly and his system has responded very well to treatment, showing that there was no serious affection of the heart.

The truth is that Secretary Lane has been making a strenuous tour of the West, reviewing delegations, hearing complaints and accepting invitations to large public dinners and receptions and making as many speeches as a political candidate in the wind-up of a heated campaign. Although he is a strong man in the prime of life and has mastered the art of not tiring, he was unable to stand up to a vigorous campaign in the West since the beginning of the present year to acquire a new territory there. At the office of William H. C. Co., who have acted as fiscal agents for the California Petroleum Company, it was said today that the two foreign companies have been waging a vigorous campaign in the West ever since the beginning of the present year to acquire a new territory there. Co., who have acted as fiscal agents for the California Petroleum Company, it was said today that the two foreign companies have been waging a vigorous campaign in the West ever since the beginning of the present year to acquire a new territory there.

WHAT IS TOO MUCH.

The morning was sultry in Oakland, with no wind and the sun beat down on the reviewing stand with blinding glare. Lane was noticeably excited over meeting many old friends among the prominent Native Sons from various parts of the State when he had not seen since he was honored with a place in the Cabinet, and he showed signs of extreme nervousness and great physical exhaustion. He was urged to go home, but he laughed and said he would stay to the finish. When he stood up to welcome the advance guard in the great procession he was ghastly pale and soon afterward he fell to the floor of the reviewing stand in a dead faint.

Lane had accepted the duty of reviewing the parade because of Gov. Johnson's poor health. Ever since Johnson had been ailing, he has lost weight and strength gradually and his friends fear that he will have to retire from public life when his present term is ended.

LANE TO REST QUIETLY.

TO REMAIN AT HIS HOME. (BY A. P. WIRE TO THE TIMES.) BERKELEY, Sept. 9.—Dr. Frederick J. Lane, brother of Secretary of the Interior Franklin K. Lane, said tonight that Secretary Lane was not at all serious and he stated that his collapse while reviewing the Admission Day parade in Oakland was due

PROFITABLE PUBLICITY.

A newspaper's value as an advertising medium is necessarily measured by its circulation. Circulation, however, involves the character and buying capacity of a paper's readers, and means more than mere distribution.

There is probably no other city in America in which one newspaper so completely outclasses its contemporaries in both quantity and quality of circulation as does The Times in Los Angeles. This journal is not turned to by its subscribers for momentary amusement, as is the case with many other newspapers, but it is read regularly and believingly by the rank and file of our citizenry, and is an important factor in the life of the majority of the respectable, thinking, earning, industrious and buying men and women within the radius of its circulation.

The Times does not issue a Sunday paper Saturday night, send incomplete editions to out-of-town points, misbrand its editions or resort to any other subterfuge to deceive its advertising patrons, or make its circulation appear to be larger than it actually is.

The Times' circulation figures are based on the number of copies that go to bona fide subscribers, and advertisers who desire to reach the maximum number of buying readers at a minimum cost cannot afford to ignore its pre-eminent value as a publicity medium.

The Times' tremendous popularity, and the profitability of its columns to its advertising patrons, are attested by the fact that it regularly prints a greater volume and a greater variety of Liner and Display advertising than any other newspaper in the world.

The Times covers the richest of all fields for the advertiser with less waste in its circulation than any other medium, and no advertising campaign can be conducted in Los Angeles and Southern California at the right proportion of cost to results without using its columns.

largely to overwork and the strain of the long tour the secretary has been making in the West. Dr. Lane said it will be necessary merely for his brother to rest quietly at the Lane home here for several days. He stated the secretary has been subject to night attacks of heart trouble during the past two years.

URGENT LIND TO "BACK UP."

(BY A. P. WIRE TO THE TIMES.)

MEXICO CITY, Sept. 9.—The probability that negotiations between the United States and Mexico would be resumed at an early date was intimated today at the American embassy, although Nelson O'Hanlon, secretary of the American Legation, charged that the United States was not committed as to whether it had been advised of a new proposal or officially of Washington's determination to make a further effort at adjustment.

It is significant, however, that he has advised President Wilson's representative, Mr. Lind, who now is at Vera Cruz, to return as far as Orizaba, about one-third the distance to the capital, Mr. Lind seemingly not wishing to come to the capital until the preliminaries had reached a stage where he felt assured his services could be utilized. Whether Mr. Lind will act on this recommendation is not known.

The Mexican Minister of Foreign Affairs, Señor Gamboa, still denies knowledge of the reported official charge of General de Somoza's visit to Washington.

Several hundred rebels with machine guns near Salina, northwest of the city of San Luis Potosí, are said to have wiped out three small detachments of Federalists sent against them. The rebels to the north, east and west of San Luis Potosí are out of commission. A strong rebel movement is reported in the State of Sinaloa.

Content of the Standard with the Royal Dutch and Shell interests is to be capped by latter acquiring more New Territory on the Pacific Coast.

(BY DIRECT WIRE TO THE TIMES.)

NEW YORK BUREAU OF THE TIMES, Sept. 9.—[Exclusive Dispatch.] Persistent reports were current in the financial district today that the Royal Dutch Petroleum Company and the Standard Oil Company were contemplating the taking over of the California Petroleum Company. It is known that the two foreign companies have been waging a vigorous campaign in the West ever since the beginning of the present year to acquire a new territory there. At the office of William H. C. Co., who have acted as fiscal agents for the California Petroleum Company, it was said today that the two foreign companies have been waging a vigorous campaign in the West ever since the beginning of the present year to acquire a new territory there.

Another feature which has given weight to the report is the strength shown by Petroleum stock since the first of the month. On September 3 preferred stock of the company sold at 52, and today it was as high as 54, while common, which sold at 22 on September 3, sold at high figures of 27 1/2 today and closed at 28.

The California Petroleum Company has a capitalization of \$11,500,000, 100,000 shares of common stock, and \$11,500,000 common stock. On the preferred there is outstanding \$11,434,514, and of common there is outstanding \$11,434,514.

Gen. Wood Will Designate Old Lighthouse for Location of San Diego Memorial.

(BY DIRECT WIRE TO THE TIMES.)

WASHINGTON BUREAU OF THE TIMES, Sept. 9.—[Exclusive Dispatch.] Gen. Leonard Wood, Chief of Staff of the army, signed his intention today to Congressmen Kettner and Col. D. C. Collier to designate the site of the old lighthouse as the location for the Carranza monument. This is in accordance with a request from the Order of Panama, delivered to him by Kettner and Collier. Gen. Wood said the President would issue a proclamation to the department according to routine, designating the monument to Carranza as a public monument. This proclamation will be issued, he said, within the next three days.

SKIRTED MEXICAN RAIDER SURRENDERS HER SWORD.

(SPECIAL CORRESPONDENCE OF THE TIMES.)

E. L. PASO (Tex.) Sept. 9.—A veteran of three Mexican revolutions, Senora Carmen Parra de la Alana, says she has had enough of war's alarms and intends to return to her little ranch home in San Andres, Chihuahua.

With sixty of her devoted followers, La Senora Capitana, as she is called, rode into Juarez and surrendered her sword to Gen. Francisco Castro, of the Federal government. Her sword was returned to her by the commander of the northern frontier, and on the next train south she went to San Andres.

Senora Alana is the wife of Col. Alana, who has been a commander since the first revolution. At first his wife, a young and striking woman of pure Indian-Mexican type, accompanied him in the field after the

AMERICAN AMERICANS TAKE

AMERICA INTO CONFIDENCE.

First Definite Step Taken at Washington to Inform This Nation of Proposed Confederacy—Negroes and Mexicans Formally Submit Plans to Senator Bacon.

(BY DIRECT WIRE TO THE TIMES.)

WASHINGTON, Sept. 9.—[Exclusive Dispatch.] The first definite step has been taken by Central Americans interested in forming a union of Central American Republics to bring the matter to the attention of the United States government.

Gen. Francisco Alcala, formerly Minister of Public Works of Honduras; Angel Ugarte, formerly Minister of Honduras at Washington, and Salvador Lajarra, of Nicaragua, today called on Senator Bacon, chairman of the Senate Committee on Foreign Affairs, to ask him to bring to the attention of the members of the committee the project of creating the United States of Central America, which is now the principal topic of discussion in Latin American circles here.

Senator Bacon took the verbal statements made to him under consideration and asked that the substance of them be furnished in writing.

This was done by Alcala, Ugarte and Lajarra. Alcala furnished one statement and Ugarte and Lajarra jointly furnished another. The burden of these statements is that the proposed union of the five Central American republics is the true way out of all future Central American difficulties.

were not by the fire of the supposed vanquished enemy. Before Villarreal was able to rally his men, more than a dozen were instantly killed and forty-two more wounded by the fire of the machine guns hidden in the neighboring houses.

HUNDRED AND EIGHT SHOT. Made desperate by what they termed the wanton treachery of a savage foe, the Constitutionalists defeated the Federalists in a ferocious charge. It is admitted that 194 Federalists cut off from the main body and made prisoners were immediately ordered executed in retaliation for what Col. Villarreal denounced as a "crime against humanity," charging the Federalists with taking advantage of a symbol that should be sacred in war.

Subsequently, no mercy was shown on either side, and it is stated scores of dead were left in the streets.

CUATRO CIENEGAS FALLS.

In the meantime Constitutionalists Col. Murguía were routed and Cuatro Ciénegas, the desert stronghold, fell into Federal hands.

The forces of Col. Murguía, who had defended the passes between Meneola and Ciénegas for more than a week, fell back in the face of superior equipment and weapons of the Federalists. The rebels did not fire a shot in defense of the desert stronghold and one of the largest shipping centers in Coahuila.

The torch was applied to several of the largest factories, including the Madero rubber plant, as well as a number of houses. The roads leading in every direction are filled with refugees fleeing toward the border.

While these scenes were being enacted at one end of the line after defeating the Federalists, reinforcements from Meneola, Col. Villarreal continued his march to Cuatro Ciénegas and immediately besieged the place. The surviving Federalists are reported to have started for the same destination and another encounter is considered certain.

An automobile filled with ammunition reached Murguía at midnight and his forces will co-operate with Villarreal during the expected engagement.

HEARD FROM CARRANZA.

While the battle of San Buenaventura was in progress, couriers arrived from Tlaxi, Durango, with messages from Gov. Venustiano Carranza, who is reported to have been in the command-in-chief expected to visit Piedras Negras in time to celebrate Independence Day, September 16. In view of Carranza's absence from Coahuila, Dr. de la Alana, a few days ago, that the Federalists would occupy Piedras Negras on September 16, much to the surprise of the rebels.

At the front when messages were received that an unknown party of men had tried to invade Mexico by forcing the Rio Grande last night.

An investigation showed that the suspects failed to halt when challenged by guards at the railroad crossing and were fired upon by Mexican soldiers.

The men then scrambled back to the Rio Grande and were seen to be carrying arms and ammunition. An extra detail has been sent from Salina to reinforce the garrison in case of an emergency, as rumors of an attempt to capture the Constitutional headquarters have been current for some time.

INSURRECTOS TO REPEL INVADERS.

(BY A. P. WIRE TO THE TIMES.)

PIEDRAS NEGRAS (Mex.) Sept. 9.—A manifesto which Constitutionalists say is an attempt of the Huertista government to gain recruits by intimating that Mexico is in danger of invasion from the United States was received here today. It calls on Mexicans to arise and "sweep back the certain invasion from the north."

It is alleged to have been issued by the Huertista administration.

Constitutionalists also make public a letter to Col. Murguía, a leader in Saturday's battle, when Constitutionalists defeated Federalists at San Buenaventura, inviting Murguía to desert to the Federalists. This letter, signed by Col. Antonio Escobedo, of the Federal forces at Monterrey, fighting against the rebels through sympathy or as a business, will have to take their chances with their allies.

ARREST GOV. GOMEZ.

Executive of Lower California Held in San Diego for Carrying a Concealed Weapon.

(BY A. P. WIRE TO THE TIMES.)

SAN DIEGO, Sept. 9.—Miguel Gomez, Governor of Lower California, was arrested in this city today for carrying a concealed weapon. Two policemen noticed a big bulge over the Governor's right hip pocket. One of the officers thrust his hand under the Governor's coat and pulled out a .44-caliber revolver. They therefore escorted him to the police station. There the Governor, who was much irritated, explained through an interpreter who he was. Thereupon he was released and the "gun" returned to him.

CLOSE BONORA MINES.

American and Foreign Companies Are Following Suit Rapidly.

(BY DIRECT WIRE TO THE TIMES.)

NOGALES (Ariz.) Sept. 9.—[Exclusive Dispatch.] Word came that all of the mines in Sonora will shut down after the advice from Washington and the compulsory acceptance of the rebel tax money, while the foreign companies plan to cease operations for the latter reason. Already the La Loma mill and mining company has closed down. Some of the miners and machinists arrived yesterday and more are expected by the next train. Among the companies reported as about to close are those at Chihuahua, La Colorado and other points.

A few American families arrived last night from the south and were assisted by United States Consul Frederick Simpkins. These families were ready and it is announced that there are others in the same condition in Southern Sonora, but probably they will be brought away by the Buford.

In spite of the ironclad censorship

placed by the rebels, news will leak out. Since Sunday, without change, the report has persisted that a bloody battle was fought between Maytorena and Ortiz station, with dire results for the rebels, who are reported to have been routed with enormous losses, and obliged to move their base of operations from Ortiz to Tepic station. The Federal forces were reported to be fighting themselves in Iguala, Vera Cruz, near Hermosillo, where they will make a vigorous resistance.

WILSON'S ORDER PERMITTING EXPORTATION HELPS REBELS.

Sonora's Governor Issues Decree That Foreigners Must Deliver to Him All Guns and Ammunition. Americans Are Reported as Fighting in the Constitutionalists' Ranks.

(BY DIRECT WIRE TO THE TIMES.)

NOGALES (Ariz.) Sept. 9.—[Exclusive Dispatch.] The Washington government has recently decided to permit the exportation of small arms into Mexico in limited quantities to be used by Americans for defensive purposes, but decree No. 18 issued by Gov. Maytorena of Sonora compels all persons, Mexicans or foreigners, who are not with the rebel troops, to deliver to the rebel military chief of each town or place, all arms or ammunition held by such persons within forty-eight hours after the publishing of the decree, under the penalty of \$100 or 100 days imprisonment. Thus the importation of arms permitted by President Wilson to protect Americans from bandits or hostile Indians is directly counteracted by Maytorena.

Recent dispatches state that President Wilson has decided not to permit the leaving of Americans from Mexican territory, as he was doing before he became convinced that Americans and other interests have been molested in any way, but that on the contrary the Mexican government under Gen. Huerta has been protecting them.

The Washington government has also had reliable information that there are several Americans with the rebels in Sonora, Chihuahua and other parts of Mexico, fighting against the Mexican Federal army and naturally these Americans and other foreigners who have cast in their lot with the rebels through sympathy or as a business, will have to take their chances with their allies.

The Romance Number

of the Semi-Monthly Magazine, is packed with twenty pages of humor, love stories, articles and pictures of a romantic tang—not to say tango exactly—by Helen Green Van Campen, Kate Masterson, David Warfield, Lillian Bennet-Thompson, Carl Crow, Richard LeGallienne, Armand Both, Henry J. Peck and others.

"The Big Ballad Hit"

By Helen Van Campen.

Illustrations by C. F. Miller.

Tin Pan Alley, where most of the popular songs are made in New York, is curiously tanned and freckled with romance as seen through the eyes of Helen Green Van Campen. Love, jealousy, the mysterious disappearance of Dolly Von Linden, the agitated search for her by Benny, her song-making husband; her spectacular reappearance and footlight triumph combine to make a heart-tugging, rib-tickling and really uproarious short story.

"The Theater Nuisance"

By David Warfield.

That actors have rights, as well as audiences, is cleverly urged in an editorial by the leading character actor of America in the next Semi-Monthly Magazine. Sneezers, programme rustlers, whippersnappers and such selfish or thoughtless folk are not only nuisances to their neighbors, but are the bane and terror of actors and actresses, says Mr. Warfield in his scathing protest and rebuke.

"The Girl with a Past"

By Kate Masterson.

As Mark Twain said of grand opera, the Girl with a Past in this gripping, unusual story, is not so bad as she may sound or as the title might indicate. In fact, she is a pathetically good girl who is desperately hungry for romance and who goes about finding it in an extraordinary way.

"New Wrinkles"

This popular and helpful feature of the magazine will add to a well-worn number, and will have some aids in it for every housewife.

"Team-Work in the Flowery Republic"

By Carl Crow.

Chinese guides for American business may not sound romantic, but Carl Crow has come back from China with a business article that reads like a romance, and yet it is chock full of illuminating facts and informative figures. There are things, even in business, that bustling American money-makers can learn to their abundant profit from gray old China.

"Fetters"

Illustrations by Wilson Dexter.

Real power throbs in every line of this dynamic story of a Wall-street captain who gambled for millions and for a woman's heart—and found his riches turned into dead-sea fruit. Did the woman love him for better or for worse? Is the problem of the story. It's for women to solve.

NEW YORK FLYER DETAINED.

Three of the Crew Fatally Hurt and Thirty-five Passengers Are Injured.

NEW MADISON (O.) Sept. 9.—

The New York-St. Louis flyer of the Pennsylvania Railroad was detained four miles west of here at 9:40 o'clock this morning, injuring thirty-five of the seventy-three passengers and fatally injuring three of the crew. The coaches went into a corn field, on one side of the track, the engine and tender striking a bridge abutment on the other side of the track and turning one span of the bridge into the air.

The rear coach remained on the rails and the next coach, although off the track, did not overturn. None of the passengers was seriously hurt, but two women were so badly crushed and scalded it is believed they will die, and a chef in the diner was badly scalded. The engineer suffered a severe scalp wound.

The wreck occurred on a sharp curve, where the track was weak, the train traveling at high speed.

LITTLE LANDERS LECTURE EXCURSION TOMORROW

TAKE GLENDALE CARS AND AUTO STAGE TO MONTE VISTA — — — BEAUTIFUL AFTERNOON TRIP AMONG THE HILLS

Now, go today and see this famous Vale of Monte Vista—the unique mountain garden village, of the Little Landers — and their beautiful rock-ribbed temple among the everlasting hills.

Today, Wednesday, Sept. 10th, an afternoon excursion leaves on the Glendale car at 12:40 (noon) from the Pacific Electric Building, Sixth and Main streets. Fare, round trip, 50 cents.

It's just a glorious trip around the corner of the green Verdugo Hills—a trolley and auto stage—to the City of the Little Landers, only sixteen miles away and 2000 feet above the sea—amidst live oaks—in a mellow mountain climate and an outlook over the world.

You get the tang of the autumn spirit—and see the harvest and best town suburban to Los Angeles. A real "home" town at prices within your reach.

Return trip due in city at 5:30 p.m.—just a fine afternoon programme. For literature, trip tickets, or other particulars, call, telephone or write.

Illustrated free lecture on the life of the Little Landers Wednesday and Friday evenings at 8 o'clock, at headquarters, 929 South Figueroa street, House of the Little Landers, 929 South Figueroa St. Phone: Home 5829; Main 5829.

Arriving at 3 p.m., the "Temple of the Little Landers" will be opened for an address by Hon. William H. Smythe, on the subject of "A Little Land and a Living, Surely."

Admission free. Come and see the scores of homes of the Little Landers.

See the rarest mountain village in the world.

See the 75-foot frontage garden lots—at only \$350—and the 145-foot (half acre) garden plots at only \$500—easy terms.

Study the co-operative store now in operation.

Here is a refuge and retreat—a little land and a living—a high social and intellectual life; out in the real mountains, but so close to town.

Take the 11:40 (noon) Glendale car on Sixth street. Look for the Little Landers' manager with his badge on the car. Change cars at Glendale, via Montrose. Total fare, 50 cents, including trolley and the beautiful mountain auto ride—and admission to the lecture. Fare refunded if you become a Little Lander.

Proposed Ordinance Aims to Aid Commission.

Unfavorable Courts to Go Under New Order.

Education, Instruction, More Inspectors Needed.

Los Angeles is in a fair way to rid itself of some of its most undesirable houses and to allow only those to remain in existence that strictly conform to the standards of the Health Commission, now constituted with the health department of the city and directly under the control of Health Commissioner Powers.

Members of the Housing Commission conferred yesterday with the Health Commissioner and the City Council will be requested to pass the ordinance. This ordinance does away with conflicting authority heretofore existing in the city, which are constantly increasing.

Such interest and comment has been stirred up by the publication in the "Los Angeles Times" of an article by William H. Matthews on the housing conditions of Los Angeles. In this article Matthews set forth facts and figures, gathered from official sources, that made a bad showing for the city's house conditions, and the information drawn was far from flattering.

It is admitted that the situation is far from desirable, members of the housing bureau and the health commissioner believe that under the proposed ordinance the way will be cleared to make radical changes in housing conditions here.

There are now 640 house courts in the city. These contain 1700 shacks with no sanitary facilities. The shacks, including shacks of Mexicans, Italians, Chinese, Japanese, and other nationalities to the extent of twenty.

The co-ordinated work of the health department and the bureau of housing, under the direction of Health Commissioner Powers, is expected to accomplish great service for the betterment of conditions that must be changed before the influx of immigration that is sure to come with the opening of the Panama Canal.

The proposed ordinance goes into many details of provision for improvement in house courts and tenements that heretofore have been untouched, or have only been touched.

One of the innovations proposed in the ordinance is that a health officer be appointed to show how the law is made, but at least one health officer must be appointed to show how the law is made, but at least one health officer must be appointed to show how the law is made.

Under the new ordinance, whereby the health department is operated through the health department, the new ordinance is expected to accomplish great service for the betterment of conditions that must be changed before the influx of immigration that is sure to come with the opening of the Panama Canal.

WIDE WORLD INVITED TO SUNNY CALIFORNIA.

THREE hundred and eighty-two thousand postal cards, each bearing the signature of a resident of the city of Los Angeles, are being mailed today as part of a campaign which is being waged by the Southern Pacific to make this state the magnet for a record-breaking tourist travel during the season opening the 35th year and closing October 15.

This city is not to be alone in flooding the country with invitations to "Come to California." All told, the Southern Pacific, through various channels, is distributing 1,500,000 postal cards today to the residents of the United States. POLICE DOCTORS HAVE NO TIME.

INJURED PATROLMAN WANTS AN HOUR FOR TREATMENT.

Three Surgeons and Three Nurses Work Diligently on Broken Leg While Officer, Victim of Thugs, Stays in the "Drunk" Ward—Could Have Gotten to County for Nothing.

Attacked by the thugs at Fifth street and Central avenue, his right arm dislocated and his face cut and bruised, Patrolman F. M. Wilson was hurried to the Receiving Hospital where he was given emergency treatment—after waiting an hour in the "drunk" ward. Wilson's injuries would have been attended sooner had not Chief Surgeon Zering and two other surgeons, in addition to three nurses, been busy with another patient who had sustained a broken leg. Friends of the injured patrolman who sought to interest Dr. Zering in his case were told to stay out of the room after Wilson had suffered an hour without attention, however, Chief Zering found no difficulty in persuading the hospital surgeons to investigate his injuries. Dr. Zering hurriedly attended to the dislocation, told the injured man that there was a possibility of his arm being saved and broken and informed him that in case he didn't have money to employ a private physician, his injuries would be treated free of charge at the County Hospital.

So solicitous for the suffering of the injured patrolman were the surgeons that his face was washed and painted with iodine and his arm strapped to his body in five minutes from the time he was placed on the operating table. After an outsider helped the injured man to gather his clothing from the floor of the "drunk" ward, the patrolman refused the hospitality of these quarters and walked to his home.

Wilson was passing a saloon at

Fifth street and Central avenue when two men approached and asked him for a quarter. He was not in uniform and when he refused the demand he was set upon by the thugs and thrown to the pavement. In the fall his arm was rendered useless and after striking and kicking their victim the assailants fled. Wilson has been in the police department a year today and has a record as an exemplary officer.

Former Boys in Blue and Ladies of Relief Corps Depart for Annual Encampment.

Pomona and Dr. E. W. Clark of this city, respectively commander, assistant adjutant-general and medical director of the Department of California and Nevada, G.A.R., left last night by the Owl for San Francisco, where they will head a party of the former boys in blue who will leave today for Chattanooga to attend the annual encampment of the Grand Army of the Republic. Moore Petty of Pomona and Dr. George C. Somers of this city accompanied their superior officers north.

Mrs. Geraldine Friebe of San Francisco, national president of the Women's Relief Corps, accompanied by members of her staff, spent six hours here yesterday on route East to the Chattanooga gathering. Mrs. Friebe and staff, traveling in a special Pullman, got in here during the afternoon and left at 10:15 o'clock last night for Chattanooga, accompanied by Madame Wright, Brown, Matthews, Cross and Winter.

EASTLAKE PARK NEW ILLINOIS.

Thirty Thousand There With Native Sons, Daughters.

Monster Picnic Jams Every Corner of Play Place.

Mme. Severance Organizes New Children's Club.

You had to drive the best part of a mile on one side of Eastlake Park or the other in order to find a place to park your car yesterday if you went to the big picnic in an automobile.

The Illinois Association and the Native Sons and Daughters of the Golden West, combined in a mammoth celebration of Admission Day, and the event was a towering success. It was not topology, at that, even if 30,000 of the brightest people in Southern California did attend. They began coming as early as 9 o'clock in the morning, and a good many were there for supper and sundown. Most of the eating was done at noon, and the speaking and singing began at 2 o'clock.

The Native Sons and Daughters maintained one booth for headquarters and the Illinois Association another. J. A. Adair was chairman for the Native Sons and Mrs. Grace Culver for the Native Daughters. They have four parties for the Sons and two for the Daughters in Los Angeles, with a combined membership of 954. The youngest Native Daughter "registered" was Dorothy Risk, aged 18 months, daughter of Mr. and Mrs. T. C. Risk, No. 3115 Sunset avenue. Dr. J. M. Peebles, aged 93 years, was the oldest man on the grounds.

Dr. Peebles was born in Vermont, but has been in Los Angeles off and on for twenty-five years. He was at the picnic yesterday as the representative of the Illinois Association. He is at the head of a number of these clubs, the idea being to get the names and addresses of as many Illinois people of a picnic age as possible so that fortunate people of the city may have the pleasure of entertaining them with automobile rides one day out of each month. Dr. Peebles will be the president of the club for September.

One bright little child claims the distinction of having been born on Admission Day two years ago. This was Ward Emory Hallinan, son of Mr. and Mrs. John A. Hallinan, No. 1718 Peronto street. Baby Hallinan had quite the time of his life. When approached for an interview he said that he did not anticipate another home picnic. Thomas J. White spoke of whether school began Monday or not.

HIGHEST FAMILY.

The largest family party on the

grounds was the Casad annual reunion. This party consisted of 100 persons and included S. S. Casad, Mrs. C. C. Moore and their descendants to the fourth generation. Casad is 44 years of age. He lives at Sierra Madre. Mrs. Moore is his sister. She is two years his senior and lives at Gardena. She is still young enough to ask the camera man when he goes to make her picture if he thinks she is going to break the lens. Three of their great-grandchildren were present yesterday. They have others who stayed at home. This is one of the rugged old families given to California and to Los Angeles by Illinois.

Arizona had a handsome delegation to represent the Illinois people of the new State's adoption. Many of them were from Phoenix, Ariz., a thriving railroad town fifteen miles south of Phoenix.

The Illinois headquarters hung all of its registers on a tree and let everyone sign that woe! It was a perfectly good pine tree with pine-needles from which the resin oozed in true pine tree fashion. This made everybody much more at home. It was a token of nature they hadn't thought to meet.

They had badges for all the different counties and these were printed in big black letters. People wore them on their coats if they were men and elsewhere if they were not. This identified everybody and gave them a chance to shake hands on auspicious grounds.

Eastlake Park was jammed with them—such families as those of S. S. Casad and Mrs. C. C. Moore, his sister (top), who, at 90 years of age, is a family of more than one hundred former residents of that State now in this vicinity. The little boy, Casad's great-grandson, was the smallest Native Son present. Below is the family of Mrs. John A. Hallinan, typical of hundreds of such who participated. At the right, Ward Hallinan, who was born on Admission Day two years ago.

Boyish Suits For Young Girls

THE boyishness of these new suits for young girls is delightful. Actually pocketed, the skirts in "trouser" effect—peg-topped, too.

And vests to the mannish little coats.

They are perfectly in accord with the plan—that, this season, young girls shall be boyish—slimly, straightly, comfortably boyish—and femininely so!

More feminine—just as attractive—a new cut of soft blue. Here, a three-banded skirt that's rather an innovation for the tailored suit. And a jacket, somewhat Russian—with spots of vivid color in the head design.

EXCITING SONG.

Everybody joined the Motine Quartette in singing "I Love You, California" and also "Illinois." The latter's words are as follows:

By the rivers gently flowing, Illinois, Illinois, O'er the prairies verdant growing, Illinois, Illinois, Comes an echo on the breeze, Rustling through the leafy trees, And its mellow tones are these, Illinois, Illinois, And its mellow tones are these, Illinois, Illinois.

From a wilderness of prairies, Illinois, Illinois, Straight thy way and never varies, Illinois, Illinois, Till upon the island sea, Stands thy great commercial tree, Turning all the world to thee, Illinois, Illinois, Turning all the world to thee, Illinois, Illinois.

When you heard your country called, Illinois, Illinois, Where the shot and shell were falling, Illinois, Illinois, When the "Southern Host" withdrew, Pitting Gray against the Blue, There were none more brave than you, Illinois, Illinois, There were none more brave than you, Illinois, Illinois.

Not without thy wondrous story, Illinois, Illinois, Can be writ the nation's glory, Illinois, Illinois, On the record of thy years, Abraham Lincoln's name appears, Grant and Logan, and our tears, Illinois, Illinois, Grant and Logan, and our tears, Illinois, Illinois.

The Illinois Association has 1800 members by card and about 32,000 by inherent right. The officers are F. W. Blair, president; S. D. Moe, vice-president; C. E. Salsbery, secretary. The board of control consists of M. E. Hurley, chairman; G. K. Barrera, E. Y. Murray, R. L. Oliver, G. H. Moore, Joseph Kyrle, C. L. Logan, Louis Kaiser, Paul Howe, W. W. Haskell, A. E. Brode and Dr. W. C. H. Jaynes.

HOOR GLASS REVERSED.

Days of Old and Gold Recalled by Los Angeles San Franciscans—Pioneer Organization Planned.

"Reunion of old San Franciscans residing in Southern California," is the way it read on the menu served in the banquet-room of the Jonathan Club last night, and it came about in this wise: Three men whose early history is connected with the Bay City, but who have lived in Los Angeles long enough to know for a certainty that they never will live anywhere else, incubated the idea and collected sixteen others. Last night they ate and told stories of the old coastland route, which used to extend from California and San Francisco streets to the Baldwin Hotel.

The practical side of the discussion was supplied by the suggestion that a more cordial relation might be established between the Bay City and the Angel City, and a committee was chosen to arrange for a permanent organization, and to call a similar meeting at an early date, when an attempt will be made to reach all old San Franciscans eligible to membership. The California poppy is the official flower.

The three men who conceived the idea of the dinner are Linton Kimble, E. O. Gerberding and Charles S. Walton, and their associates, Edward Cole, E. K. Bancher, Melville Adler, John T. Best, G. C. F. A. Last, Emilia Bauer, F. J. Zeehandelaar, Oscar C. Morgan, W. W. Burton, Capt. E. F. Bellack, L. D. C. Gray, Dan J. Brewster, R. G. Hillman, Capt. R. G. Bush, William Bauschly and David Jewell.

ANNIVERSARY BANQUET.

Delightful Function at the Alexandria Hotel Last Night in Honor of a Popular Preacher.

A most delightfully-appointed banquet was given last night in one of the upper parlors of the Alexandria Hotel, at which Dr. Charles Edward Locke, popular pastor of the First Methodist Episcopal Church, was the guest of honor. The occasion was the fifth anniversary of his pastorate and the fifty-fifth anniversary of his birth, both being coincident with the birth of California as a State. The charming hostess was Mrs. Melvina A. Lott, a generous patron of the church, who recently added to her beneficence by volunteering to provide for the magnificent new church which is to be built during the coming year, one of the finest churches of bells that can be procured. At the tables were seated forty ladies and gentlemen of close intimacy with the pastor and the hostess.

The tables were brilliantly ornamented with handsome candelabra and red carnations and the menu spread with lay terms. The menu was one of the most dainty that could be conceived by the accomplished chef and the evening was one of real delight, aided by Miss Myrtle F. Ouliet, the well known harpist.

The post-prandial feast was skillfully handled by Dr. H. W. Brodbeck, toastmaster, and the responses were of unusual brilliancy and replete with wit and humor, in which the happy turns upon "Lett" and "Locks" elicited repeated rounds of applause. They were as follows: "Locks," Mrs. Rose A. Seymour; "Anniversaries," W. F. Cronenberger; "September," Mrs. T. H. Oxnard; "Don't Worry," J. F. Poole; "Friends," Mrs. E. F. Whitford; "Why Is Banquet?" C. A. Parmelee; "Our Guest," Mrs. Lott; response, Dr. Locke.

ELIMINATE CENTER POLES.

In connection with the project of paving sixteenth street from Normandie avenue to Arlington street, the plans include the elimination of center poles maintained by the Pacific Electric Company between its tracks. The tracks are now fourteen feet from center to center, and by the removal of the trolley poles they can be relied when the paving is put in. They will be installed thirteen feet apart from center to center.

RETURNED BY SISTER.

Lily Hilbert of No. 723 Wall street returned her sister Hazel, 13 years old, to the county authorities yesterday. The young girl escaped Monday night from Juvenile Hall and went directly home. The older sister refused to take any chances and took her to the Sheriff's office. Mrs. Hilbert is now serving time in the County Jail upon conviction of contributing to the delinquency of one of her daughters.

RESIDENCE TENNIS COURTS SCHOOL HOUSE GYMNASIUM

The Yale School, located at 205-209 N. Union Ave., is the second oldest private school in the city and the only Non-Military Boarding and Day School. This is a strictly high-class select school and is limited to 25 boarding and 25 day pupils. It emphasizes the fact that there are not over ten boys in any class and that every pupil receives much individual attention.

INTERIOR OF GYMNASIUM.

It has both grammar and high school departments, and fits for any college in the country. If a boy does not intend to go to College or a Scientific School he can secure here a thorough high school English education which will fit him for his life work. Although not advertised as a business college the institution includes in its high school work courses in both book-keeping and stenography. Modern Languages and Manual Training are also included in the curriculum of studies. A strong feature of the school is the personal attention paid to the physical development of its boys, as it has a splendid gymnasium, shower baths, tennis courts, athletic field and gives systematic instruction in gymnastic and athletic exercises under the direction of a skilled director trained in Yale methods of coaching. The Home Life of the School is its most prominent feature, and it is the aim of the Management to so care for its boys that they will always be happy and contented and their parents will feel that they are surrounded by the refining influence of a home that exerts itself to bring out in its boys all that is manly and noble. The instructors are all college men of Christian character and trained specialists in their various departments. Although established as a boarding school, the institution has a liberal patronage of Day Pupils, and boys come from all parts of the city. A separate dining room is provided for the day scholars and a hot luncheon is served to those who wish it. A noticeable feature of the school is the School Spirit and the lack of class distinction. It is possible for a boy to do more through work and to advance more rapidly here than in the Public Schools because of his coming in such close personal contact with his teachers. The school opens its 13th year on September 17th, and invites inspection. Visitors are welcome, and information will be cheerfully given. Address T. G. Adams, Head Master, No. 209 N. Union Avenue, Los Angeles, Calif. Telephone Wilshire 2484.

FLIGHT OF A
WHITE STREAK.With Red Demon Motors in
Pursuit.That's What the Big Corona
Race Was Like.A Thrilling Description of the
Stutz's Victory.

BY R. A. WYNNE.

In the midst of over 100,000 Southern Californians there remains this morning the picture of a ghostly white thing fleeing screamingly around and around pursued by three giant red monsters which seemed to be bursting their mighty hearts in their titanic efforts to overtake the elusive white shape.

It was the vivid memory of those last twenty laps in the wonderful free-for-all race at Corona yesterday, when Earl Cooper and his white Stutz won both the heavy car and the free-for-all events from the greatest field of competitors ever gathered at a road race in the West.

Barney Oldfield had turned turtle in his giant Mercer when he had a nice lead of two laps and Cooper had leaped into the lead like a white flash of light. The speed had become terrific. The 100,000 spectators who lined the three miles of the speedway, a hundred and more deep on both sides were dizzy in counting the flashing cars as they leaped into view for a second and seemed to drop from sight like a flash of light. The pace increased until the very air was odorous of burning rubber from the mistreated tires. Whistlers, in his Mercer, went out with engine trouble. De Palma, fighting valiantly in the last Mercer, also gave up the ghost. There remained only the three Flats with Tetzlaff, Verbeck and Hill driving and the elusive and fast Stutz to fight it out in the free-for-all.

AFTER THE STUTZ.

The Flats started out to get the Stutz. They were said to have the speed and it seemed a foregone conclusion that one of them would finally reach the Stutz and pass her.

Here began one of the most brilliant and stubborn fights ever seen on a race track. Tetzlaff in his mighty 128 Flat crept up to within striking distance of the Stutz, but to the astonishment of the spectators, there he hung. The Stutz seemed to become a thing of life. It leaped into view from under the drooping pepper trees one instant and the next instant it was disappearing under the bending trees at the distant curve in the track. The Flats plunged, roaring defiance, after the Stutz, but the margin of separation remained the same. The spectators arose in a mass as they realized that Cooper had suddenly displayed speed that was marvelous and was actually holding the mighty 128 Flat at arm's length.

In the train of Tetzlaff and his Flat roared Verbeck and then Hill. The three foreign cars seemed to be imposed with the driver's fierce longing to overhaul that fleeing white shape in front. A dozen laps were covered in what seemed to be a deadlock. Something must give, as that awful pace could not continue.

In the pits the Stutz helpers stood spellbound at the marvelous showing of their own car. In the first pits the helpers stood with tires waiting and implements in hand to rush through the expected tire change.

SIGNALS FOR TIRES.

Suddenly the mechanic with Cooper was seen to throw up one hand as they shot into the lower turn and a deep groan went up from the spectators. Cooper was coming in for a change of tire. As his car slowed and jerked to a standstill and while the leverish and almost hysterical mechanics "yanked" the car up on a jack

COOPER WINS GRAND PRIZE
CORONA MOTOR ROAD RACE.

Barney Oldfield Wrecks His Mercer to Avoid Killing a Boy—Teddy Tetzlaff Loses to Stutz Racer in Thrilling Fight for World Championship — Studebaker Turns Turtle in Light Event—Many Thrills.

BY HERT C. SMITH.

ONE HUNDRED THOUSAND spectators saw Earl Cooper, in the Stutz, win the Corona road race yesterday. A new world champion was born in the race that was tense with excitement. That white, ghostly Stutz, with two men crouched low behind the cowl, kept bounding over the wire for lap after lap with speed unchallenged save when a tire was changed.

Barney Oldfield led that great race for fifty-nine laps. The crowd was wild. Women danced and cheered, then cheered again. The man who had won so many track victories was to be victor in the greatest road race ever held. Barney sent that Mercer over to a wonderful lead, and when two laps ahead, and while leading the entire field of sixteen cars, the world champion's finish came in a sensational wreck.

With Cooper close behind him, Barney went into the first curve beyond the grand stands at ninety miles an hour. He turned so quickly that he passed the flying Mercer, which Barney was handling so well. It looked like Oldfield's race. Eager to see the leader, the crowd surged close to the curb. That finish was tragic, and in that wreck Oldfield showed himself to be every inch a man.

BARNEY SAVED BOY.

Overcome by excitement, a 9-year-old lad raced out on that course directly in front of Oldfield's winning Mercer. Frank Sandhoffer, the mechanic, saw the boy, but so did Barney. Quick as a flash, Oldfield whirled his steering wheel to avoid the boy. He turned so quickly that the front wheel of the Mercer crumpled, the car lurched to the curb and Mechanician Sandhoffer was thrown out and crushed under the car.

The boy was saved. The little fellow, frightened almost to death, went screaming to his mother's side. The mangled mechanic was picked up tenderly and hurried to the field hospital. How Barney escaped no one will ever be able to say. The car did not turn turtle, but Oldfield, trembling like a leaf, climbed out of the wreckage and walked back to the pits followed by a crowd. Barney had saved the boy, but at a fearful cost.

It will never be known just how Barney would have fared in that race. His car was running perfectly. The engine was in splendid shape. The accident settled things for Oldfield, and Cooper took the lead, never to lose it again until he had won both the heavy event and the free-for-all in a wonderful dash.

COOPER'S TRIUMPH.

Earl Cooper defeated the world's best drivers. He was matched with Ralph de Palma, Teddy Tetzlaff, Spencer Wishart and Barney Oldfield, and he won. The trophies and prize money are his and he is the new world motor champion and his Stutz is one

Winning Stutz and the winner, Cooper.

Above is the flying meteor as it was turning seventy-eight miles an hour for lap after lap and leading a field of the fastest racing motors on earth. Below the face of the man who drove that white car into two remarkable victories in the same day.

HOW A WASHER MISPLACED
IN THE PITS LOST A RACE.

BY BONNIE GLESSNER.

FUNNY old Father Time, the shifting sands of whose hour-glass are said to check off each passing second or fraction thereof, must have been a very busy man if he gave a personal supervision to the repair pits at the Corona road race yesterday, for there, more than at any other section of the polished race course that rims the Crown City, was time vitally valuable.

Across from the grand stand were the repair pits—boarded enclosures that are pits in name only—and here men struggled throughout the long, hot day, fighting, fighting desperately for every second of the precious time that relentlessly slipped away, carrying with it, as the case might be,

HAPS AND HENS BROKE EVEN.

Angels Won the Morning Game.

Penice Drives Three Pitchers in Afternoon.

Team Howard Steals Some Bases.

BY HARRY A. WILLIAMS.

Though pastime was crowded into yesterday's double bill to tide the fans over the night.

The morning game, a rough-and-tumble affair, went to the Angels, 3 to 2, and the Tigers triumphed in the afternoon bout, another dramatic spot, 4 to 3.

Bill Toner started in the box in the afternoon. Five minutes later he was nowhere to be seen. He didn't get the first inning. A hurry-up call was sent for the ambulance after

Two of the tragic wrecks of a day replete with excitement.

Above the Studebaker which was hurled into the curb, in the driver, William Rhodes and the mechanic, Billy Warren, who may die. Below the remains of the Mercer, which Barney Oldfield wrecked in order to save the life of a small boy who crossed the course.

The Tigers had macerated Bill for three runs.

Slagle, his successor, was spanked for three runs in the sixth, and was given the derelict in the seventh after hitting Carlisle and getting hit by Kane. Roy Crabbe then went in and choked the Tigers' gas, but the straining act came for later.

HITTING WORK.

Roy Hitt worked six innings for Venice rather unconvincingly, and then abdicated in favor of "Weck" Harbison. "Weck" completely silenced the Angel eliot chorus, the only hit on his account being a walk that didn't amount to anything.

Carlisle hit one of Toner's earlier at Howard. Walter clearly had the drive beaten, and went to second when Ivan overthrew first. Kane's out deposited Carlisle at third, and Nelson, working for Rayless, who is home nursing a hell on his off foot, singled Walter in with the first run.

Felix peddled along to second on McDonnell's single, and gained third when O'Rourke singled infirm. Melan and O'Rourke engineered a double play, Felix suffering the pious, Litchi, catching the spirit of the great score, landed a single in center and O'Rourke roared around to the plate.

KEAT WILLIAMS.

This final blow blew Bill off the mound. Slagle threw only one ball in this inning, and used that for the purpose of nipping Litchi off first.

The Angels retrieved one of these in the second, Bill Page hitting the ball over Carlisle for three bases and counting on Krueger's out. Los Angeles scored the sister to this one in the third, and it began to look like a tied score. This was a case, however, in which appearances were misleading.

Margret opened the third by nipping a hit curve for a single. Moore followed with a slam to center, Margret easily gaining third. Moore tried to sneak down to second on Kane's throw to Litchi and was nailed. Ellis put a high foul about fifty feet back of third.

THE PILOT WORKER.

The fourth was delivered by the near-puffing of a little bad blood by Messrs. O'Rourke and Johnson. With two out, Ellis reached first by means of a barely twirling fly that Patey dropped. Ellis tried to steal and ripped Patey's sock, likewise his epidermis, sliding into the bag. This proved Patey, and his right leg got, he attempted to boot Ellis.

Umpire Bush overlooked the unpleasantness, turned his back and remarked on the beauty of the landscape. After a little excited chatter Patey and Ellis cooled down and returned to the pursuit of peace.

The fifth getting was wound up in the sixth, the Tigers clinching the contest with a noble little cluster of three and the Angels hanging up a consolation run.

Melan drove to the right field bleachers. Krueger had some difficulty in clawing the ball out of the corner. Melan took third on the hit and counted when Moore made a bad relay to that base.

McDonnell manufactured a double to the center territory, but was caught at third on O'Rourke's drive to Johnson. Mac didn't give up without a struggle, and Patey went to second, while he was being effaced. Litchi lashed to right for one base, and Patey put in an appearance of the plate. Stewart's out sent Lou along to second and Ellis brought him to his journey's end with a smart single to right center that Margret was lucky to block. Ellis succumbed

on a grounder to Page, sending his mates back to till the soil.

RUBE ELLIS COUNTS.

Ellis showed a single to right in the sixth, one being out at the time. A passed ball placed him on second. Howard died to Carlisle. Page here plunked out his second triple, selecting deep right for the purpose. Ellis counting. Bill curled up his toes at third when Krueger dropped one in Kane's deer-skin maw.

Slagle began to stagger again at the start of the seventh. He hit Carlisle and Kane found him for an infield single. Crabbe then fell heir to an embarrassing situation—two on and none out. Melan sacrificed. McDonnell drove to Johnson, who threw Carlisle out the plate. O'Rourke fled to Ellis for the third out.

From this on there was a total absence of anything resembling a base hit by any of the several parties to the argument.

MORNING GAME.

The surprise session was featured by the rare abandon with which the Angels roamed the bases. They were credited with eight thefts, and no less than four of these figured in the lost.

Howard made the heaviest haul, stealing second in the first, second and third in the third and second in the sixth. Ellis was second with a meeky two.

Had the game been an hour longer Howard probably would have beaten Jimmy Johnson out for the league record.

Klepper went into the box complaining that he was ill. His work lacked a lot of being up to his usual standard, and he made little or no effort to hold runners on first. This nullified Sterrett's efforts to shoot down the pirates.

TIGERS START WELL.

The Tigers got away to a flying start. They hung up two in the first inning, and Charley Chase remarked that it was a warm day. After that, however, they were able to molest Charley for but one run, and that 'way along in the sixth.

Kane walked in the first and went to third when Melan shot a single past Page. McDonnell was passed, nailing the bases. O'Rourke forced McDonnell at second. Johnson to O'Rourke. Kane scoring. Page, in trying to complete a double, threw the ball into the pit and Melan scored. Ellis ran over near Santa Ana and barged Litchi's dy.

Los Angeles balanced the account in the second half. With two out, Dillon decided on a bunting campaign. Ellis placed one in front of the plate and beat it out, and followed this indignity by stealing second. Howard sent a squirming down to Litchi that left Lou puzzled as to what to do with it. The result was that Lou didn't do anything. Howard pliffed second and Page sent both men in with a clean hit to center. Krueger forced Page.

ANGELS TAKE LEAD.

The Angels moved out in front in the third and were never headed. Margret singled and stole. Moore sacrificed. Ellis drove to Patey and Margret scored when O'Rourke's throw to the plate hit him on the calf of the leg. Howard forced Ellis and then calmly looted second and third. Page walked and registered the fourth strike of the inning. Both perished on Krueger's infield demise.

Kane hung up the final Tiger tally in the sixth on his own single. Melan's sacrifice and McDonnell's hit. Los Angeles mated this one in the second half, the ingredients being Howard's single and their supplement with a twin swat by Page.

Hits by Ellis and Krueger, sandwiching a ramble by Page, put the angels one more run to the good in the eighth.

The score:

Morning game.

BOB M'ALLISTER FIGHTS PETROSKEY ANOTHER DRAW

[BY A. P. NIGHT WIRE TO THE TIMES.]

SAN FRANCISCO, Sept. 9.—The best fight since the fight between Thomas and McAllister was the verdict of the old-time critics tonight when the referee gave a draw to Bob McAllister and Salter Petroskey at the end of twenty rounds today at Cotto's arena.

Petroskey and McAllister fought twenty rounds to a draw a month ago, and the decision was much questioned. Today the fight was even closer.

On the score of points, McAllister must be credited with fourteen of the twenty rounds. But on the other hand, Petroskey scored three knock-downs—one in the eighteenth for a count of six, and two in the nineteenth for a count of eight.

McAllister came back in the twentieth round with a renewed vigor and energy, and he showed surprising power and recuperative power and whenever he put a punch to Petroskey's body there was power behind it.

Two small cars doing better than a sixty-mile average.

Earle Jackson in the Reo put on a sudden spurt in the twentieth lap and took second place from Barney Schnack and Goode in the Ford and Studebaker.

Spurred on with a desire to win a great race, Barney Schnack burned his engine to a white heat and went dead at the pit in the twenty-first lap, after heading second place for sixty miles. He was then replaced by Earl Cooper.

It was generally admitted that McAllister showed improvement. He retained his speed and cleverness. He showed surprising power and recuperative power and whenever he put a punch to Petroskey's body there was power behind it.

Interest in the fight centered on McAllister's punch. He showed a two small cars doing better than a sixty-mile average.

Earl Cooper Wins. The Macomber Rotary Engine Makes a Creditable Showing.

Wishart took the count, then De Palma, and later Tetzlaff and several others. Underneath Barney Oldfield's misfortune changed the final result in favor of Cooper.

Pearl Leach, one of the best drivers in the race, driving the Macomber "Red Devil" No. 16, broke two pistons after a most magnificent seventy-five mile start, and joined the "down and out" colony.

Joe Mansfield, of Vanderbilt Race fame, who piloted Macomber No. 14, "The Greyhound," and tore off thirty-six laps, looked for a time as if he were in the money. At the start he averaged something like sixty-six miles per hour.

There were rumors and more rumors, but the Stutz kept its lead with Barney preening Cooper every scorch any tire, and the pace was too fierce.

Then came a change, and Earl Cooper ran into first place in the thirteenth lap. Cooper went into the fourteenth lap in the lead and the crowd went wild. Women stood on their feet and yelled and yelled. Clapping hands was not enough. It must be something fierce.

Cooper stopped. They poured water on his smoking tires. Barney was racing to catch him. Cooper held his place in spite of the stop, and they swung around the course with Barney and Tetzlaff fighting for second place.

plugging along for lap after lap, close to the leaders and always in the running for first place.

Two hundred police from Los Angeles kept the course clear.

The crowd kept its place in the grand stands. There was enough to see every minute. With a fast car passing every few seconds the course was the place on which all eyes were focused.

In the fifteenth lap Goode's Studebaker went out at the pit. It was only a carburetor adjustment and he was off again with a strong bid for place. The stop of the Studebaker, however, showed Rev. Schnack and his Ford up into second place.

second, Earl Cooper paused for a tire change and Barney jumped into the lead again.

It looked like Barney's race. The world champion was coming into his own again. His Macomber was right and Barney was in form to win.

Felix Magone, in the Stutz shot into first place in the twenty-fourth lap, only to lose his place again in the twenty-sixth turn.

It was a race. The leaders kept changing positions and there was never a minute when first place was not in doubt. Barney held a slight lead, but a tire change dropped him back to second and some times third place. Radiator trouble put De Palma out in the twenty-third lap and Ralph Verbeck in the other 131-horse-power Fiat.

ST. P. NIGHT WIRE TO THE TIMES.

SAN FRANCISCO, Sept. 9.—The candidate for the America's cup defense honors against Sir Thomas Lipton's challenger, to be built by Nat Herreshoff, for a New York syndicate, will be seventy-five feet on the water line. Mr. Herreshoff announced today, it was at first said that Mr. Herreshoff would design a seventy-footer, a statement which caused surprise in England, but this Mr. Herreshoff explained today, was merely a term of convenience. The syndicate will be headed by former Commodore Cornelius Vanderbilt of the New York Yacht Club, J. P. Morgan, and Frederick G. Bourne.

Mr. Herreshoff announced that he had been given a free hand in the matter of expense, and design. He added that he would not accept a commission for another candidate for next year's international honors.

KNOXVILLE WON'T RISK THEIR NECKS.

KNOXVILLE (Tenn.) Sept. 9.—Johnson City is the pennant winner in the Appalachian League, Knoxville having forfeited by refusing to go to Johnson City to play three of the post-season series of seven games, on account of alleged threats by Johnson City players, following a spiking episode here in which a Johnson City player was injured. Three of the post-season series have been played in Knoxville, Knoxville winning two. Three games were scheduled to be played at Johnson City this week.

Abdullah, the Turk, well known in Los Angeles sporting circles, took a bride here today in the person of Miss Alice Finley, also of Los Angeles. SACRAMENTO, Sept. 9.—Out of seven runs scored by Sacramento in a double-header victory over Oakland today, Bill Kenworthy scored two and drove in three by timely hitting with men on bases.

Sacramento took the morning game 4 to 2, in ten innings. Tennant's single, a walk off Buck O'Brien, and Kenworthy's single drove in the winning run.

The afternoon score was 3 to 2. Lewis's home run, Kenworthy's triple and Kettner's single gave the Wolves two in the second; singles by Lewis and Kenworthy played the major part in the third run in the sixth. Coy's three-bagger with two men on and Zacher's sacrifice fly gave the Oaks their three morning runs.

Singles by Gardner and Coy scored the first Oakland run in the matinee; singles by Guest and Rohrer and Kenworthy's error scored the second. The scores:

POMPANO RUNNING.

Big Run at Redondo—All That Was
Necessary Was to Drop Line—Fishing
Best for Years.

REDONDO BEACH, Sept. 9.—A great run of pompano, the best in three years, has brought hundreds of fishermen to wharf No. 1 today and yesterday. Catches of forty and fifty of the delicious little fish were made by many, and the fishermen appeared to have no trouble in hooking them. All one had to do was drop the line baited with shark meat and pull in the reel with from five to ten fish hanging on the hooks.

C. A. Sheldrick caught forty-three of the fish this afternoon in the short space of two hours. Many others made similar catches. Sardines and mackerel are also plentiful around wharf No. 1, and halibut, rock bass, yellowtail and other fish are being caught in large numbers from wharf No. 2.

Fishing for the past nine weeks has been the best in years and fish of some species or other have been plentiful about the wharves for that time continuously.

WILLIE JOHNSTON WINS STATE TITLE.

ST. P. NIGHT WIRE TO THE TIMES.
OAKLAND, Sept. 9.—William Johnston, Pacific Coast tennis champion, won the California State championship in singles today, defeating Lin Murray at the Claremont Country Club tournament. The scores were 4-1, 5-7, 3-4, 4-1. Miss Anita Myers won the women's singles championship of California today by defeating Mrs. W. J. Nicholas at the Claremont Country Club. The scores were 3-4, 4-1, 5-7.

GUINEAS AS GUARDS.

Three Dozen Pairs Let Loose in Mountains to Warn Pheasants and Wild Turkeys.

PORTERVILLE, Sept. 9.—Through the activities of officials of the Porterville Fish and Game Protective Association, three dozen pairs of guineas have been liberated in the Blue Mountains and Black Mountain district to act as protectors to wild turkeys and Hungarian pheasants, which are being acclimated to that portion of the foothills. Guineas are said to be efficient in warning other game birds of the approach of coyotes, wildcats and other predatory animals.

Three years ago wild turkeys and Hungarian pheasants, obtained from the State Game Farm, were sent to the hills, and at the present time it is estimated that there are upward of 300 of each variety which are the offspring of the few original birds put out.

Standing rewards are being offered for arrest and conviction of anyone shooting the new game.

MAGNATES MEET.

BROOKLYN, Sept. 9.—[By A. P. Night Wire.] President Ebbetts of the Brooklyn club, who is chairman of the National League board of directors, today requested President Lynch to call a meeting of that body at Cincinnati on September 16 to act on the appeal of the New York club from the decision awarding the forfeited New York-Philadelphia game of August 30 to Philadelphia.

THE GUM WE CHEW.

Some Tests to Prove Its Purity, or
Lack of It, and Feasibility of Its
Addition With Rubber.

[RECAPITULATION:] The specks of dirt in ordinary chewing gum are quite plain to the eye. If the sugar and starch coating is washed off in cold water. But in order to bring out the contamination, still more strikingly, and to give some idea of its extent, the following tests, says the Pharmaceutical Era, are conclusive. Two one-cent sticks of three well-known brands were worked up with hot water and spatula, on a sheet of glass, until all soluble matter had been removed. During the kneading the first wash water took on a rich brown color, and was so full of suspended matter that it was almost opaque in a layer half an inch thick. This was doubtless due to the solution of finer particles of woody material, reduced to an almost impalpable powder during the grinding of the batch.

The gum was then spread in a thin layer on a plate of glass and allowed to dry as thoroughly as possible in the air. This method of drying will not remove all the water, but the little that remains has practically no influence on the solubility of the gum later. The gum was then dissolved in hot benzine, the solution taking place with some difficulty, and requiring about fifteen minutes of heating on a water bath. The bottoms of the tubes, after standing a while, were covered with a dark brown deposit, in which could be distinguished particles of various sizes. The same treatment was given a piece of pure chicle. Solution was complete in about three minutes, and the only insoluble matter was a few flecks of brownish-yellow color, probably vegetable albumen colored with tannin. The solution of the

purified chicle, in addition, was of a pale brownish-yellow color, and the liquid was practically limpid, as could be seen by a patch of white paper, which was visible through the solution. On the other hand, the solutions of commercial gums are very turbid, and dark brown in color. The turbidity may partly be due to moisture, but the dark color is due to the refuse matter left in the gum during manufacture.

One other point. It is supposed that chewing gum, as usually made, contains only chicle mixed with dirt from the forests, with sugar and flavors added. Why should it go into solution in benzine so slowly? If the dirt particles had any effect they would probably hasten solution, as they would aid in disintegrating the gum. But the opposite is the case. The solution of ordinary chewing gum is not effected at all in the clean-out manner in which pure chicle dissolves, but closely resembles that in which some grades of rubber pass into solution. Moreover, the solution, after dropping the woody particles, should be of the same color as that of the pure chicle, but in fact it is entirely different, both in shade and color. Can this be due to the presence of cheap rubber in the gum? The old bugaboo, used to frighten children, that chewing gum was made from cast-off rubber shoes, may have some foundation in fact. And there are many varieties of cheap rubber to choose from now-a-days, without using old rubber boots.
